

Root  04:04:00

The image shows the top section of the Wireshark interface. At the top, there is a 'Reset Simulation' button and a checked checkbox for 'Constant Delay'. To the right, it says 'Captured to: * 503.700 s'. Below this is the 'Play Controls' section, which includes three buttons: a previous button, a play button (which is highlighted with a blue border), and a next button. Below the buttons is a progress bar with a white circular slider. At the bottom, the 'Event List Filters - Visible Events' section shows the filter 'ICMP'. Below the filter, there are two buttons: 'Edit Filters' and 'Show All/None'.

Automatically Choose Connection Type

The screenshot shows the 'Scenario 0' configuration screen. At the top, there is a dark blue header bar with a white information icon (i) on the left and a white dropdown menu on the right showing 'Scenario 0' with a blue downward arrow. Below the header, there are two dark blue buttons with white text: 'New' and 'Delete'. At the bottom, there is a large dark blue button with white text that says 'Toggle PDU List Window'.
